About Course

○ **Description**

This course aims to provide skills and equip students in designing and creating web applications and are expected to be able to practice the design and creation of simple static and dynamic web applications. The material includes the basics of HTML, CSS, Javascript, Web Design, PHP and MySQL.

○ **Learning Material**

1. **Introduction to Web Framework**
2. **Introduction to PHP and PDO**
3. **Introduction to Model, View, and Controller**
4. **CRUD and File Upload**
5. **CRUD and Form Validation**
6. **CRUD Datagrid**
7. **CRUD with Pagination Page Filtering**
8. **Security Login Using MD5 and Logout**
9. **User Management**
10. **Role Based Access Control**
11. **Reporting**

About Course

Course Code

SIS 223507 - Web Programming

Semester Credit Units

2 SKS - Practices

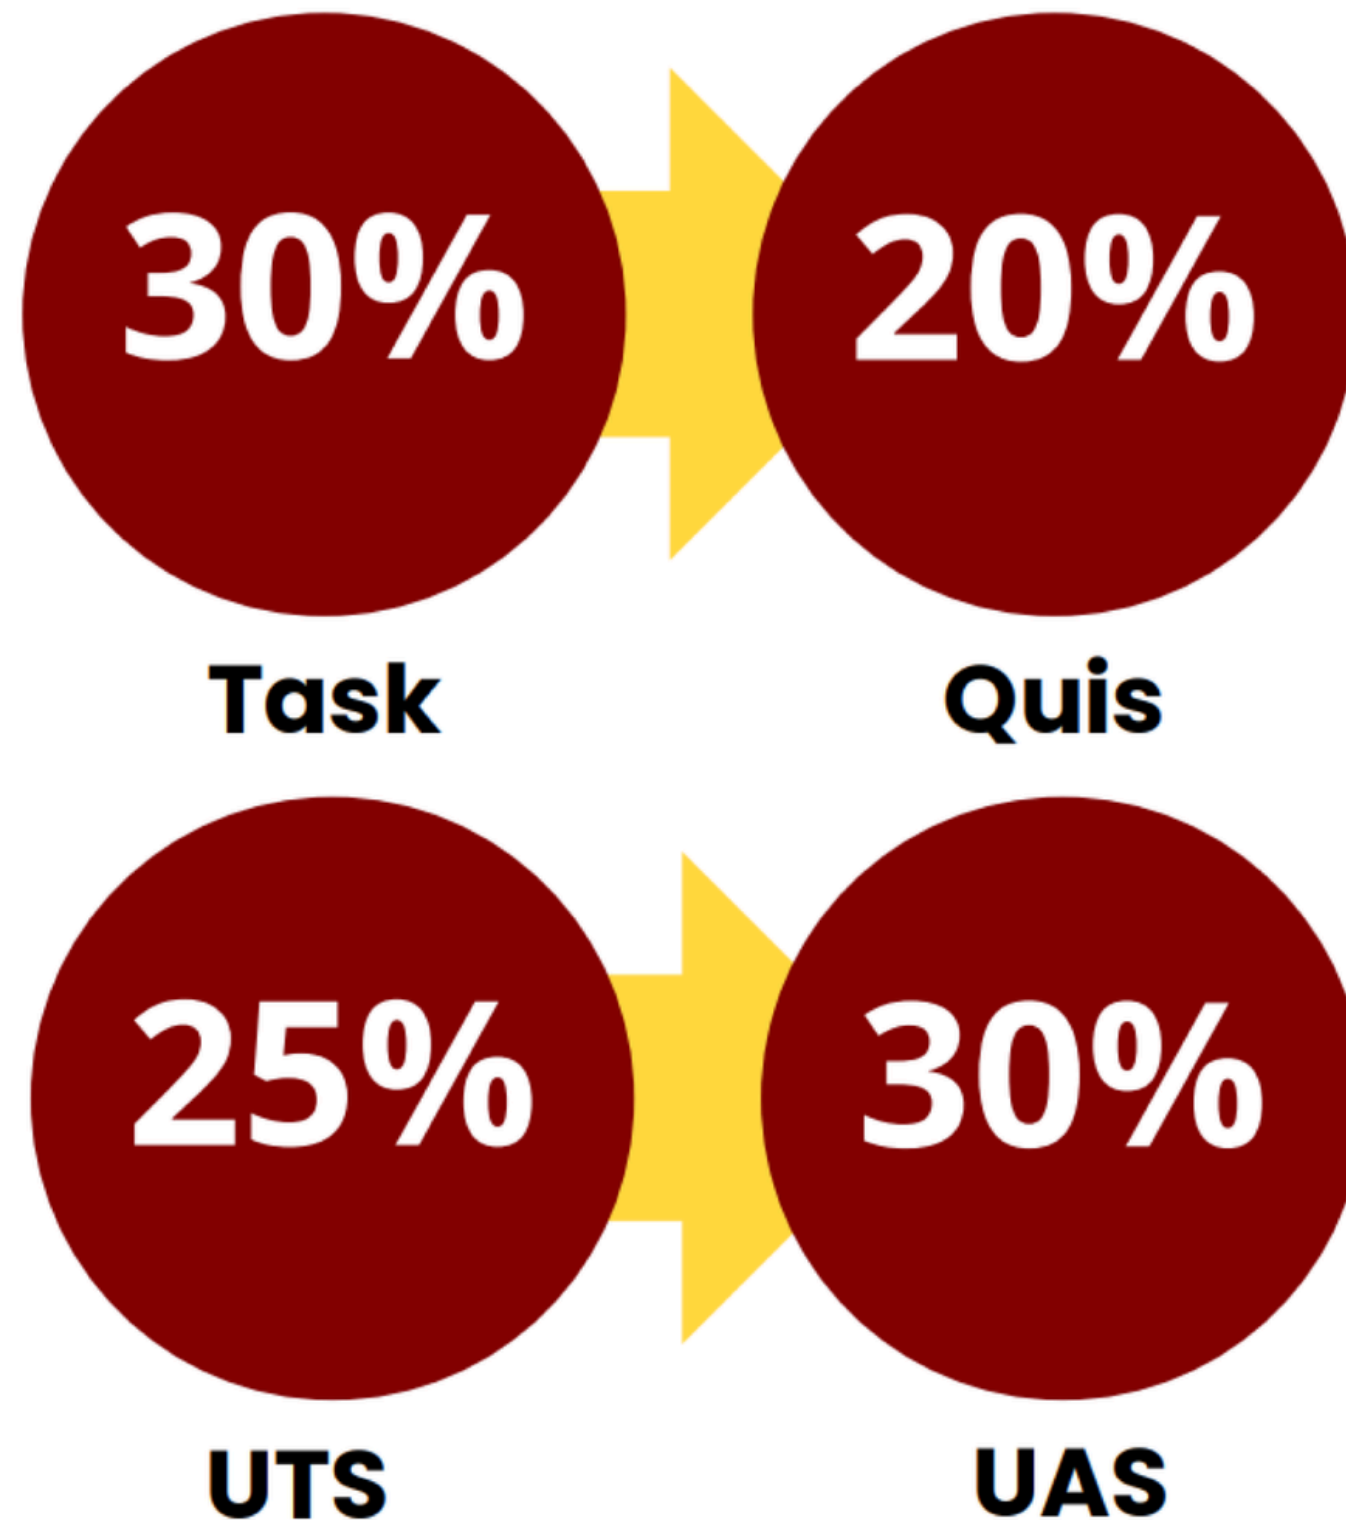

Class Regulations

- Late Time: 10 minutes
- Dress Appropriately
- Good attitude
- Bring a Module
- No Cheating : E (Not Passed)

Course Assessment

A = 90 – 100

B = 80 – 89

C = 70 – 79

D = 60 – 69

E < 59

ATTENDANCE : 80 %

Outcome based learning

Web Application Topic:

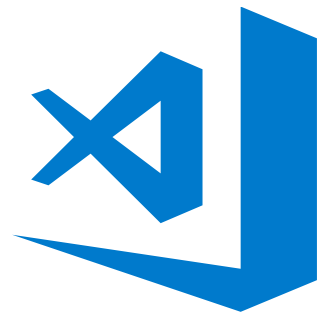

- E-Commerce
- School Website
- and more.

Requirements:

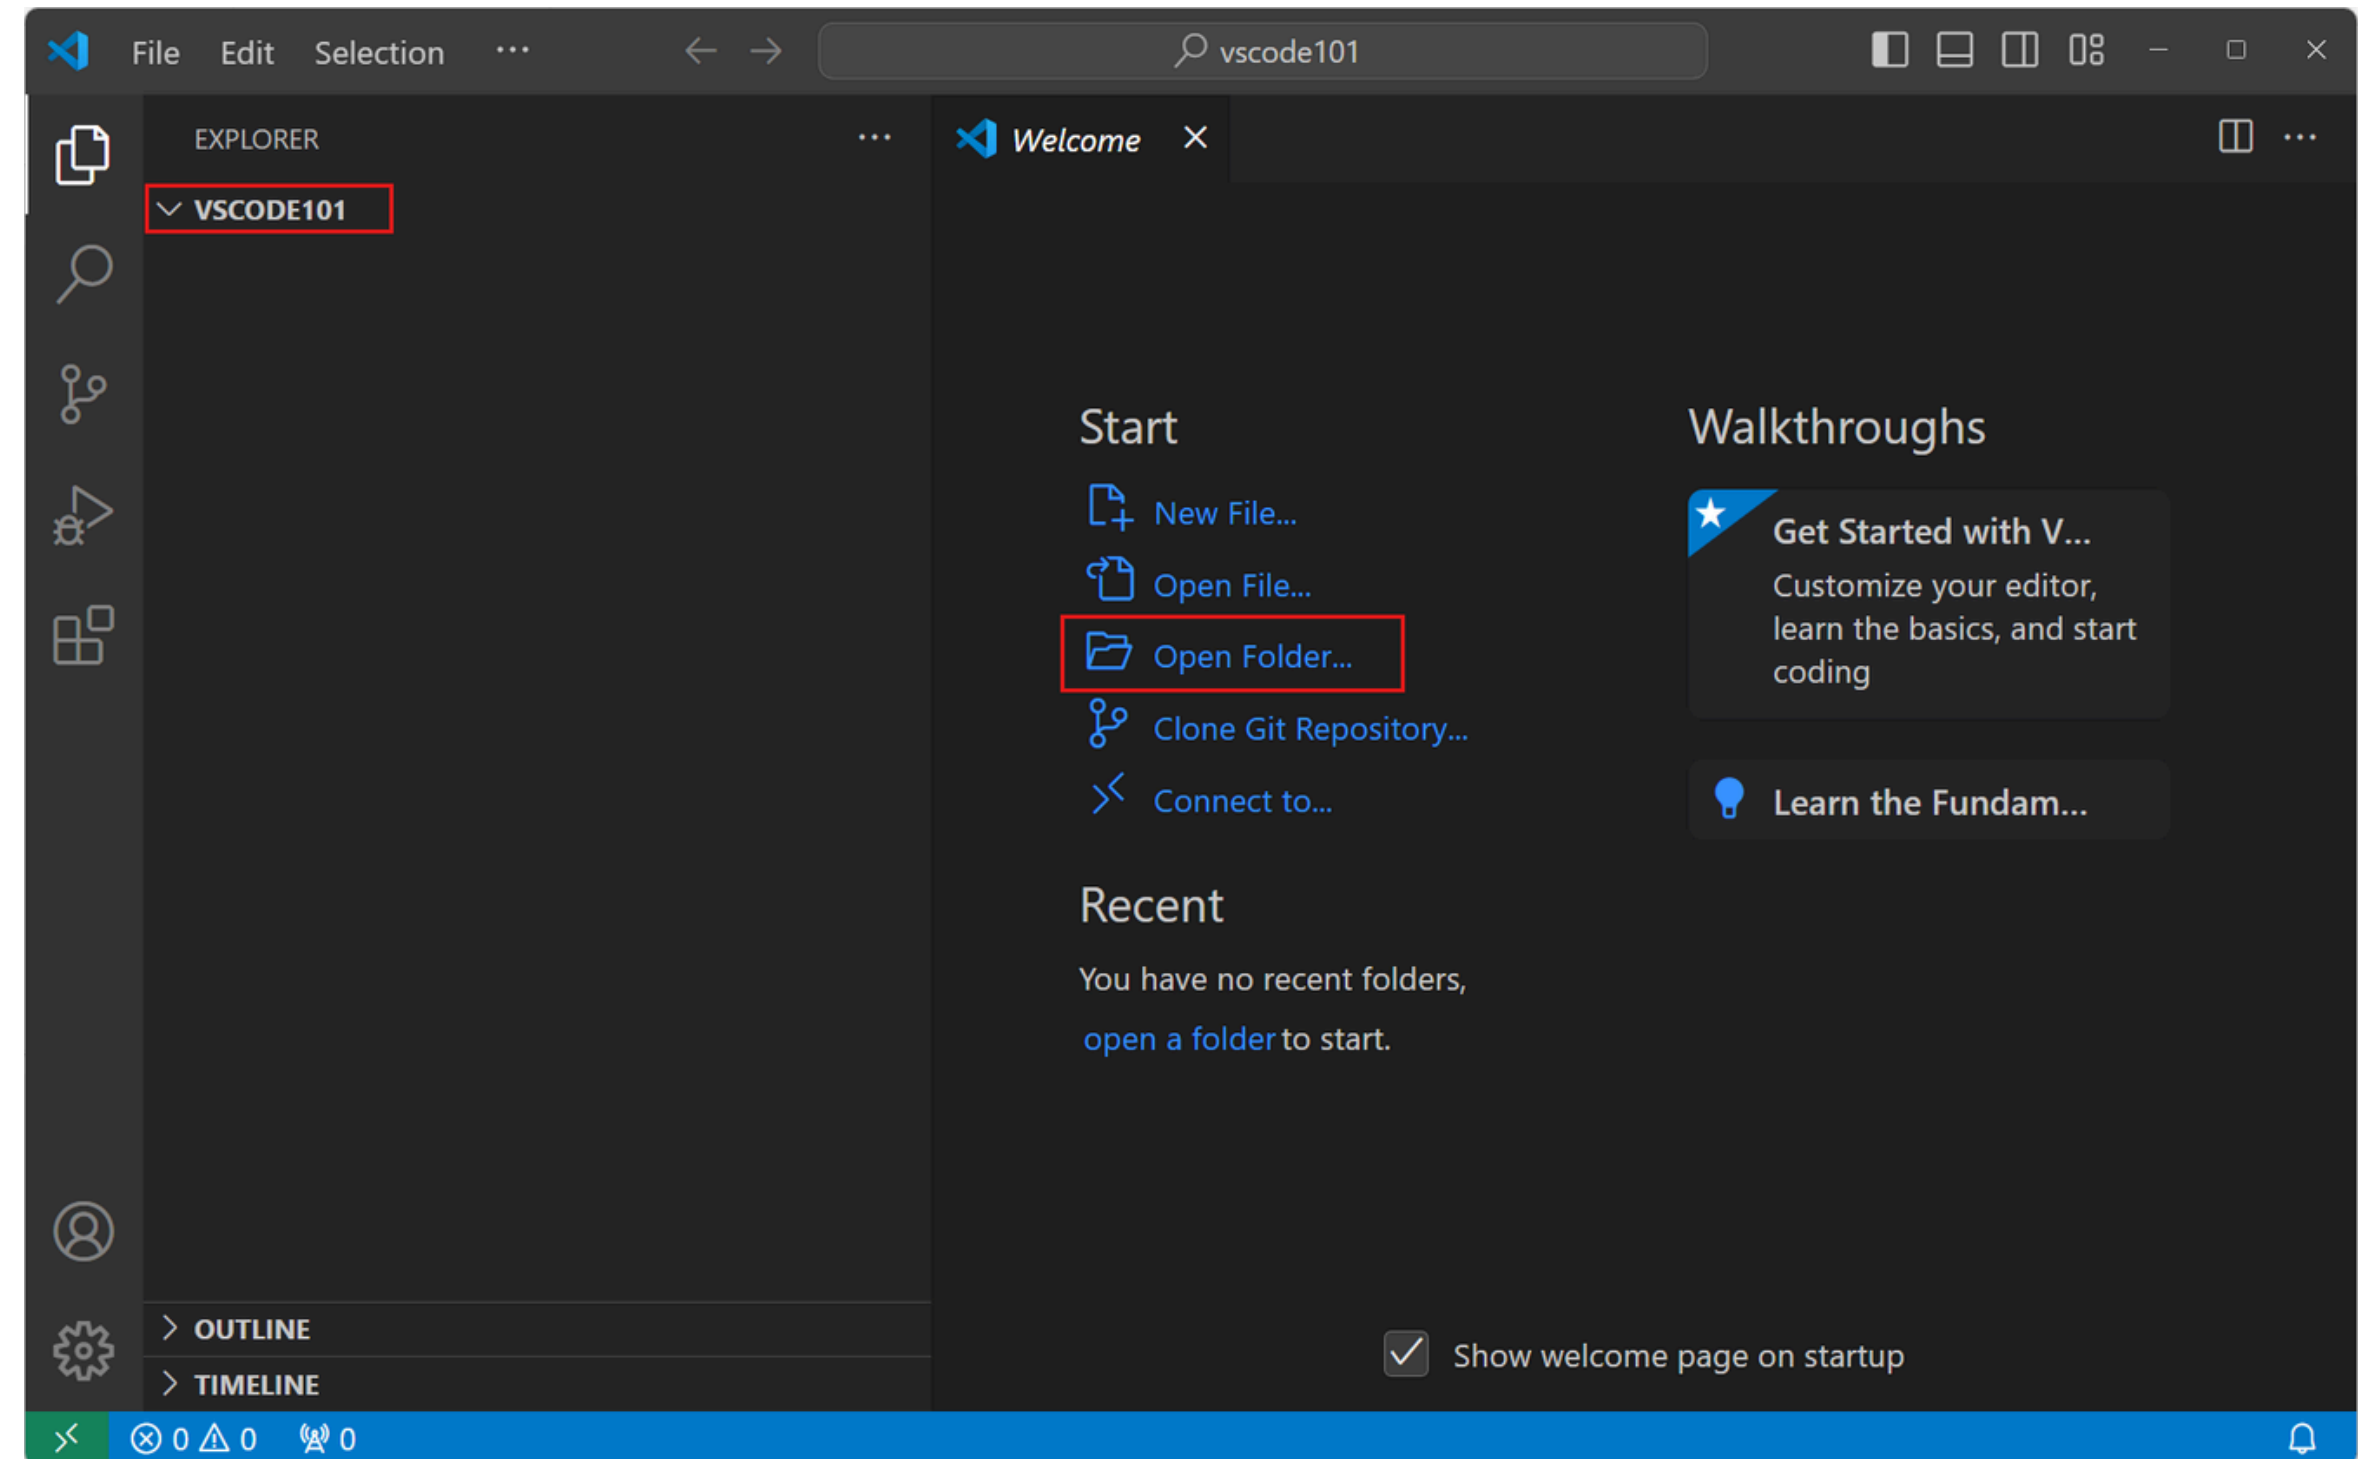

1. Make a group of (2-3 people).
2. Each group must have a partner in the final project.
3. The deadline for submitting the group list before next meeting.
4. Each group will present after Semester Midterm Exam.

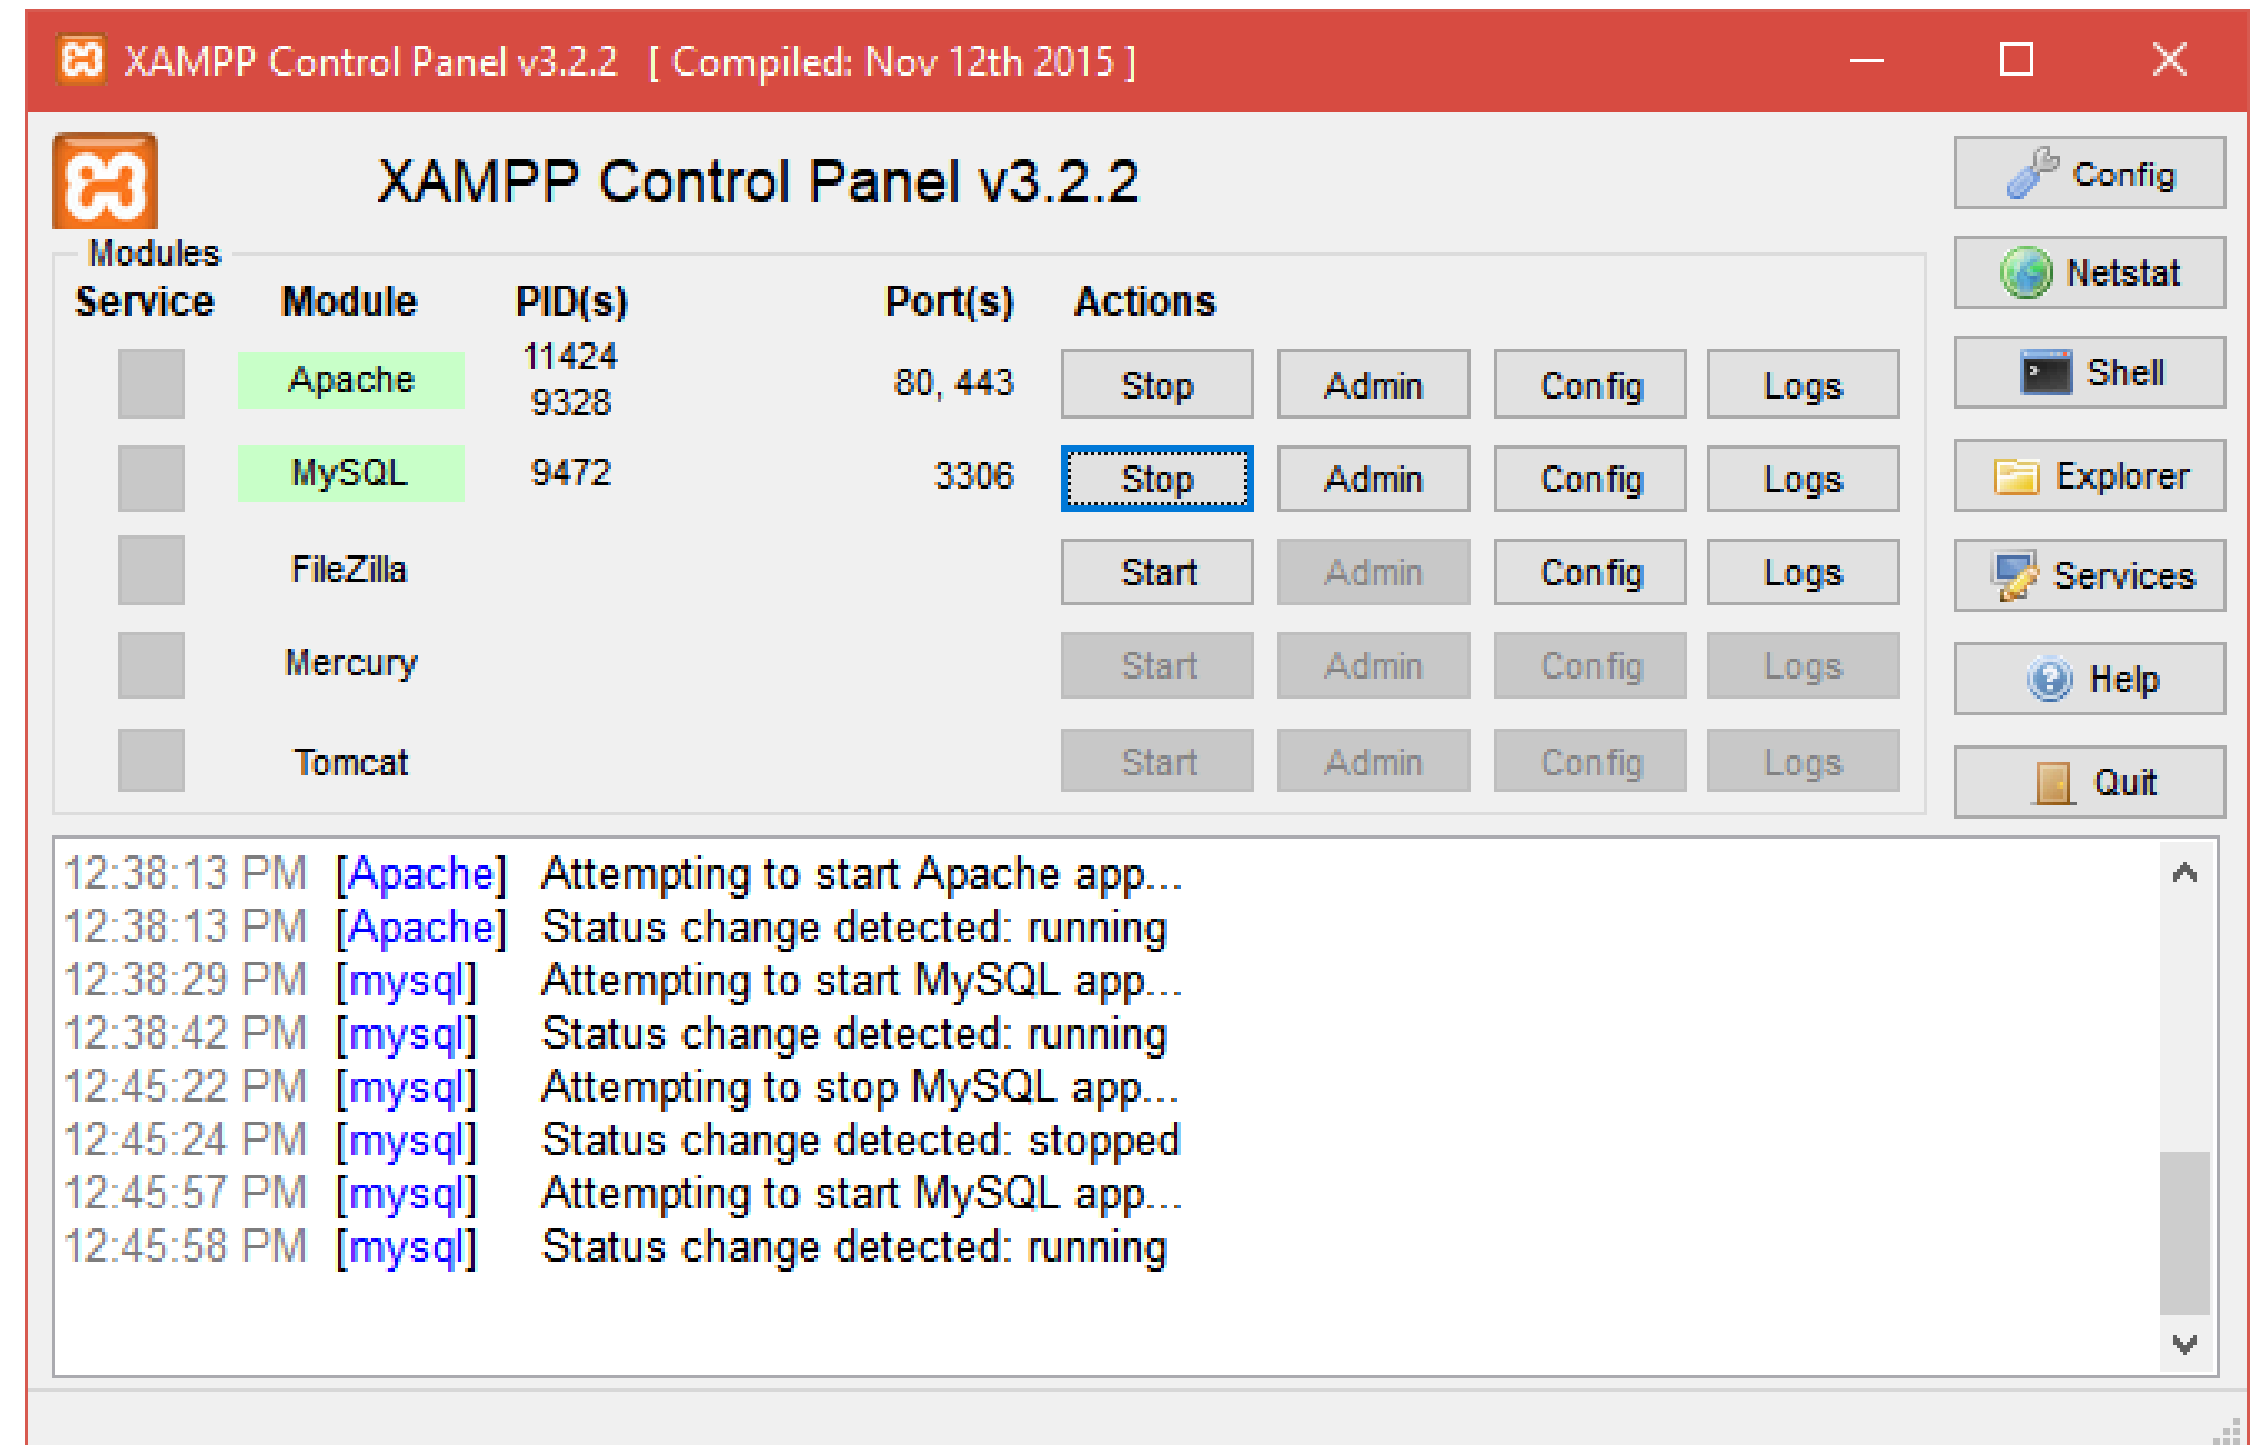

Software Requirements

Visual Studio Code
